MAN KILLED ON I. C. R. R.

Thomas Hopper Found Dead Sunday Morning Near Masonville.

WAS A TRACK WALKER

Home Was at Macedonia and Aged About 21 Years.

Cold in death the body of Thomas Hopper, a white man, was discovered by conductor Simmons, Sunday morning, alongside the I. C. near Masonville. When conductor Simmons saw the body of the unfortunate man he stopped his train and easily identified the body. After running into the station here he notified agent Mallon, who called up the coroner.

As soon as possible coroner Allensworth went out and summoned a jury and held an inquest. The verdict of the jury was that Hopper had come to his death by being struck by a passing train.

After the inquest the body was brought to the city and prepared for burial. The body was taken to Macedonia yesterday for interment.

The deceased was about 21 years of age and had a position as track walker for the I. C. He had been in the service a year or more, as we are informed by local agent Mallon. He was single, and as he was a steady, faithful man it is supposed that he had made his beat of inspection, and sat down on the side of the track and dropped off to sleep and that the pilot of a passing freight had struck him and hurled him into eternity.

An inspection of the body disclosed that one leg was broken and other parts of the body badly mangled.

The deceased was a son of Mr. W. T. Hopper of near Macedonia, this county, and a cousin of Mr. L. E. Fowler, of the Anderson-Fowler Drug Co., of this city.

REPUBLICAN GERRYMANDER

Proposed For Magisterial Districts In New Order.

LEAVES 2 DEMOCRATS.

New Precinct Made With Voting Place At Ovil.

The report of the commissioners appointed last fall, to re-district the magisterial districts of Christian county, was filed in the county clerk's office last week. The commission was composed of two Republicans and one Democrat. The report makes but one important change, that of course in the interest of the Republicans. It takes parts of Bluff Spring, Mt. Vernon and Baker's Mill precincts to make a new precinct with a voting place at Ovil. This precinct is added to Esq. W. L. Parker's district, the effect being to take enough Democratic votes away from Esq. A. J. Estes' district to make it safely Republican. The new gerrymander gives the Republicans six out of eight districts. The old plan gave them five out of eight, but the Democrats captured two Republican districts last election and now have the Fiscal Court. The district most effected is that of Esq. Estes. Esq. Parker is given a district that runs from Pond River to West Fork, nearly 30 miles in length. The gerrymander will be resisted by Esq. Estes and the Democrats generally, its object being to save the Fiscal Court to the Republicans at all hazards.

One new precinct is created in this city, being merely a division of No. 4. This change is without political significance.

Our prices last week were a shade higher than the week before. You can raise your expectation to the highest point and then bring your tobacco to the Loose Floor and get more than you counted on. Now look at these quotations: Fresh \$4.25 to 4.50; Low Leaf, 4.25; 25; 1.00; Leaf, 4.75 to 5.50; Common Leaf, 7.50 to 8.50; Common Leaf 5.50 to 6.50; Medium Leaf, 8.50 to 9.50. Don't sell your hogs at four dollars when you can get five on the floor. Don't sell your Leaf at six and a half when you can get eight dollars. It is foolish.

A busy young business man named Cable once asked a "sister" girl named Maybelle. He asked her to wed him, but the wise maiden said, "You'd better ring off till you're a style!"

Couldn't Fool William. Little Willie, just in from North Dakota, had been sent to the city school and the teacher was giving him his first lesson in reading. Pointing to the illustrated text, she said:

"Now, Willie you repeat after me each word as I read it. Are you ready?"

"Yes'm." Teacher (reading):—"This is a hare! See him run!"

"This is a—" repeated Willie. But just then his eye took in the illustration and he shouted with excitement: "Hair nothin'! This is a jack rabbit—and he's got some!"

ONE ON DINNY. Casey was asked what caused all the noise in his house one morning, and getting back at the inquisitive neighbor, answered: "Oh, 'twas me boy Dinny. He set down on his grandmother's false teeth, and they bit him!"—Englewood (Ill.) Times.

HE GOT THE MITTEN. I heard a good one on an impetuous fellow who last Christmas season wanted to make his best girl, who, by the way, had artistic tastes, an artistic present. Going to an art store, he found everything that he thought appropriate too high for his exceedingly limited purse, but, going out, he saw the fragments of a beautiful piece of statuary, which had just been broken. He asked the clerk what he would take for them, and was charged only a few cents. He then asked that they be packed up, as they were, and sent to his best girl, thinking that she would think the handsome work of art had been broken in transit. This was all right, only he learned that the careful clerk had wrapped each broken piece separately, and spoiled the delusion, and worse than all, the girl gave him the mitten.—Suburban Times.

THE HOME-COMING OF KITTY

By F. B. MELOON.

(Copyright by Daily Story Pub. Co.)

"Whoa!" called Edgar Williams to a voice that bespoke no little lung power as it came to the ears of the obedient horses above the deafening click of the mowing machine knives, which had been sawing incessantly and reliably at the tall herd's grass all the hot forenoon. It was not for a cooling draught that Williams had stopped his work. He had caught a glimpse of his aunt Prudence driving at a sedate walk along the road that bounded one side of the mowing. The young man and his aunt were nearly of an age, the latter being but two years the senior of her big, muscular nephew, now at home for the college vacation and working as only the country bred know how to work. The natural affection between the two was greatly strengthened by their similarity in ages, which had subjected them to much good and bad fortune among the members of the family.

As Prudence reached the gap in the wall she turned her horse's head sharply to the right, and drove in, stopping under a shade-giving limb of an apple tree. In a minute the long strides of her nephew had brought him to her side.

"Well, aunt," he said, looking up into the covered carriage with a quizzical expression, "what's worrying you now? More love affairs, I suppose. For my part I should think Fred and Dick and the rest of them were doing enough worrying without your chipping in!"

Miss Prudence's cheek turned red beneath its healthy coat of tan, and she raised a dainty, admonishing fan.

"Don't Edgar, for once I am serious and in earnest. I want you, if you will, to do me a favor." "Always at your command, auntie dear," responded the obedient nephew, his eyes twinkling. "Don't ask me too heavily, though. It is a hot day, you know,"—wiping the perspiration from his brow—and "I've this mowing to finish, and the chores to do."

"You'll have time to both, Edgar," and to catch the 6:15 train for Keene to-night."

The young man's big hazel eyes opened in wonder. "You," he said, "I want you to go to the city to-night, and see if you can find little Kitty Swenson. You know Kitty left home last week, and her folks are almost frantic. I have just come from the post office with a letter from Kitty, in which she says I mustn't tell her folks that she is with a theatrical man. It seems there is a dramatic company here, and she evidently intends to go with that company. She is keeping out of sight for the time being, and wants me to leave a second letter she inclosed at her folks' door some time after night-fall. That avoids the danger of their finding her through the telltale post-mark of course."

"And you want me to go to Keene, find her, and persuade her, if I can, to come home?" "Just that, Edgar."

"That's a whole lot, Aunt Prudence. I'm afraid that only experience can persuade her to return now that she has taken on the crucial step."

"But you can at least see that she is well cared for, and do what you can to right matters," pleaded Miss Prudence.

"Yes, at any rate, I'll try," was the promise.

The 6:15 train for the city found Williams' train formed from a farm hand to a college youth dressed in the height of fashion, a passenger.

A question put to a reporter of the Daily Sentinel, who Williams knew well, resulted in his gathering the information he desired. The "Wayward Wail" company consisted of only eight members; of these five were female and three male. A description of the latter resulted in the young man making his way to a residence at the upper end of Elm street. He pushed the button at the door, and heard the tinkling clatter of a gong inside. Almost immediately the door opened, and a woman, short and very fleshy, looked out at him suspiciously.

"What's wanted?" she queried, keeping one knee against the inner edge of the door in case her visitor should be a book agent or peddler and try to push his way into the house unbidden.

"Miss Kitty Swenson stopping here?" he asked.

"Not that I know of; all my lodgers at present are a couple of theatrical gentlemen, and a lady who joined the company here."

"The Wayward Wail" people, I presume?" "Yes."

"Is the lady about 20, black-haired and black-eyed, and of very lively spirits?"

"I don't know. I've noticed her being of very lively spirits. She answers the rest of the description. She doesn't give her name as Kitty Swenson though; she calls herself the wife of one of the gentlemen."

A pang of fear shot through the young man's breast. The suspicion, then, was true. He had not thought this thing of little Kitty Swenson, one of his boyhood's dearest playmates, and, though she has nothing to do with the story, the sister of the girl who was an engagement ring he had

placed on her finger but a fortnight before. "As for that," he said, concealing his feelings, "these theatrical people have many names. I wish to return the young lady a lost article which I found with her card enclosed."

"I will tell her," answered the landlady, closing the door and disappearing. Long experience had taught her to take no chances with strangers, even if they were good looking ones. Presently the door was reopened, and timidly and there stood the object of his search. She gave a little cry of surprise.

"You, Edgar!" she exclaimed. "Yes, it's I, Kitty," he answered grimly, "and I want to have a talk with you alone."

He found himself wondering, as he followed her up the stairs, how this delicate playmate of his youth had been misled by the ill-favored, rascally-looking man whom he had seen come from the house as he approached, and who fitted the description given by the Sentinel reporter to a thief.

But, he reflected, women do love pick out their lover's one good quality and set it against the thousand bad ones he may have.

"How father and mother, Edgar," she asked, when they were seated, a little shyly, yet much more at ease than he had believed possible under the shameful circumstances.

"Physically, they are well," he replied, simply and severely, "but their mental suffering is more than you can imagine."

The girl gave a little cry of anguish. "I am so sorry!" she exclaimed in a broken tone.

"I want to take you back with me to-night," he continued. "From that man!" he added with deep reproach, but she missed the last words.

"We were coming together in a day or two," she laughed lightly. "I have asked my folks' forgiveness."

"Their forgiveness? And yet you say they're so?" Do mean you're married?"

Certainly, was the answer, given with some asperity. At the moment the door opened and a tall, good-looking young man came into the room. He started back when he saw Williams, but the latter turned. A glance of recognition was exchanged, and the two clasped hands. Full explanations followed.

"I thought it was a fellow named Amely who roomed here; I had no idea it was my friend and classmate, Ralph Howe," said Williams.

"No, Amely is my property man," returned the other. "I'm learning business, you see, and getting married at the same time. I've seen it was necessary, but you see Kitty's folks thought her too young to marry; so we decided to get married without her folks' consent."

"Well," laughed Williams, breaking easily for the first time since his talk with Miss Prudence, "all's well that ends well, so I hope to home and forgiveness you two go with me to night!"

The trip was made over the road in Ralph Howe's 40-horse power touring car.

For Kentucky.—Partly cloudy
Tuesday.

The Gaines-Haly libel suit at Henderson has been continued until May 30.

Col. Charlie Reed and Col. Dick Davis are candidates for Mayor of Paducah.

The Tennessee supreme court has decided that Nashville must pay its \$1,000,000 subscription to the Tennessee Central railroad.

The Democrats of Chicago in convention Saturday renominated Edward F. Dunne for mayor. Carter Harrison did not allow his name to go before the convention, as he ran a poor second in the primaries.

William Jennings Bryan takes the position, in a magazine article, that no further amendment to the Constitution is needed in order to reach the trusts, but insists that their power can be curbed by stopping them from using the mails and interstate railroads.

Clint B. Leigh, a brother of Ed. O. Leigh, of Frankfort, was killed in a railroad accident near Salt Lake City last week. He went from Paducah in 1902 and had since been doing work on different papers in Salt Lake City. He leaves a widow who was Miss Christie Paynter, of Owensboro.

A Chicago preacher says dancing enlarges the feet. There must have been much dancing in Hopkinsville. —Bowling Green News.
Whatever Hopkinsville has from the ground up is on a large scale. If the News editor will extend his investigations, he will find that the anatomical development has not been confined to the pedal extremities. This is where Bowling Green is conscious of her inferiority.

Twelve million Bibles are sold annually by the various Bible houses of the United States. This is one Bible to about every seven people, infants included, and still there are some people who do not read the Bible. Evelyn Thaw swore this week that she had attended church "slightly," citing three times she had attended divine services since she could remember.

The belief is general in New York that District Attorney Jerome intends to ask for the appointment of a lunacy commission to investigate the sanity of Harry K. Thaw. The trial has already developed the fact that Evelyn Thaw was a chorus girl of very bad character, who admitted on the stand that she never heard but two or three sermons in her life. All things point to the conclusion that she was a willing victim.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & Co., Toledo, O.

Sold by all Druggists, 75c.

Spring Humors

Impure, or effete matters accumulated in the blood during the winter cause in the spring such disfiguring and painful troubles as boils, pimples, and other eruptions, also weakness, loss of appetite, that tired feeling.

The best medicine to take is Hood's Sarsaparilla, which thoroughly cleanses the blood, and effects permanent cures by giving healthy functional activity to the stomach, liver, kidneys, bowels and skin.

Sarsaparilla is Hood's Sarsaparilla in liquid form. It has been found to be the same curative properties as the liquid form, but more convenient, economy, no loss by evaporation, breakage, or leakage. It is of drug grade or purity of its ingredients.

C. I. Hood Co., Lowell, Mass.

GUARANTEED PURE AND GENUINE.

Mrs. L. Rickford, Gosville, N. H., says: "I was afflicted with a skin disease, run down, from dyspepsia and that tired feeling, and I took Hood's Sarsaparilla. It helped me from the first dose, completely restores good health and strength."

AS YOU LIKE IT CLUB

Entertained by Mrs. J. W. Downer Saturday.

Mrs. J. W. Downer charmingly entertained the "As You Like It" club Saturday afternoon and there were some novel and interesting features. A historical contest was won by Miss Jean Goldthwaite, who succeeded in naming all of the presidents in regular order. Misses Louise Downer and Addie Green, in colonial costumes received the guests at the door. The refreshments consisted of oysters, salads, cakes, coffee, etc.

Endorsed by the County

"The most popular remedy in Otsego County, and the best friend of my family," writes Wm. M. Dietz editor and publisher of the Otsego Journal, Gilbertsville, N. Y., "is Dr. King's New Discovery. It has proved to be an infallible cure for coughs and colds, making short work of the worst of them. We always keep a bottle in the house. I believe it to be the most valuable prescription known for lung and throat diseases." Guaranteed to never disappoint the taker, by R. C. Hardwick's drug store. Price 50c. and \$1.00. TOUCHED LIVE WIRE

And Was Knocked Down By the Current.

E. C. Outlaw, keeper of the city workhouse, received a violent shock from an electric light over the door of the police office Sunday afternoon at 4:30 o'clock. The light seemed to be out of order and he turned the button to shut it off, when the current of 110 volts knocked him down and he remained unconscious for some time. The exact cause of the direct current is not known. The City Light Co. took down the transformer yesterday and found it in good order. There must have been a leak of some sort. Mr. Outlaw is all right again.

HOG CHOLERA

The Problem of a Cure is Now Solved.

Dr. J. H. Snoddy, of Alton, Ill., has discovered a positive cure and preventative for this terrible disease. He has had it in use for ten years and has saved millions of dollars' worth of cholera hogs for the public. The directions for its use are simple and easy to follow. Any practical farmer can stop the worst outbreak of cholera that ever came and save every hog that is able to take the treatment.

This treatment is not an expense to a farmer, because it clears his herd of every character of worm and parasite and puts them in such a thrifty condition that the extra gain they will make from the effect of this treatment will return the farmer \$5 in this extra gain for every dollar's worth of the remedy used properly and right.

It is the greatest worm remedy known to medical science. It pays a farmer to keep his hogs clear of worms with it. When the hog is clear of worms and in good thrifty condition it is rather a hard matter to infect him with cholera without directly exposing him to the germ. It pays to use the medicine whether there is any cholera around or not.

This wonderful remedy is manufactured by the Dr. J. H. Snoddy Remedy Co., Alton, Ill., and is for sale by Planters Hardware Co., incorporated, of Hopkinsville, and E. W. Stegar & Dixon, at Masonville, Ky. Anyone calling on either of these firms can get Dr. Snoddy's free book on hog cholera, free of charge. Every farmer should have one.

PERSONAL GOSSIP.

Prof. H. Clay Smith, filed the pulpit of the Tenth Street Christian church, Bowling Green, Sunday morning and evening.

Faulkner Goldthwaite left Sunday for New York, to report for duty on the battleship Georgia, on March 1. He will stop in Baltimore a day or two to see his mother and sisters, who are still there.

Mr. Ben Campbell is here on a visit to his relatives.

Mr. Chas. H. Nash, Jr., has returned from Temple, Texas, to which place he was called by the death of his sister.

Mr. Geo. E. Gary has returned from a business trip of three days to Nashville.

Misses Jennie and Sallie Hooser have gone to the markets to buy spring goods.

Messrs. Joe Wall and Hardy Hadden have returned from Hot Springs.

Miss Eltha Turner, of Kennedy & Co., milliners, is in Cincinnati, where she will spend some time studying spring styles.

Mrs. Mary Elliott and Miss Nora Rogers are in St. Louis, purchasing spring goods for Miss Fannie Rogers' millinery establishment.

"Everybody Should Know"

Pretty Bethel Girl Becomes A Bonny Bride.

Miss Mary Grace, only daughter of Mr. A. H. Grace, of near Cadiz, was married last Thursday evening at the home of her parents, to Mr. Will Jackson, a son of Mr. C. A. Jackson, of Caldwell county. Owing to the illness of Mr. Grace, the wedding was a very quiet home affair. Mr. and Mrs. Jackson, will make their home with the bride's parents.

The bride is one of the most beautiful young ladies in a county noted for its pretty women. She was educated at Bethel Female College, in this city, and has numerous friends here who will wish her a happy future. The marriage is the culmination of a long standing attachment between the young couple.

MAYOR HARRIS LOSES.

Discharged Policeman Sues for Violation of Contract

Henderson, Ky., Feb. 23.—John Hawkins, a discharged policeman, was given a verdict against Mayor S. D. Harris for \$149.20 in the Circuit Court this afternoon.

The money was used by Hawkins to get out votes, repay men for lost time, buy whiskey, beer, cigars, etc., for distribution at factories and hotels during the Mayor's campaign. Mayor Harris swore that the expenditures were unauthorized by him. The mayor is a prominent church worker and outspoken in the cause of temperance.

ROYAL BAKING POWDER
Made from Pure Grape Cream of Tartar

The only excuse for buying anything but a Pure Grape Cream of Tartar Baking Powder is to save a few cents in price.

ROYAL costs you a few cents more per can than Alum or Phosphate of Lime powders, but it is worth far more than the difference to keep your biscuits, cakes and pastry free from the injurious effects of these cheapening substitutes.

Continued use of Alum means permanent injury to health.

METAL DRIVEWAY

Being Made Down at the I. C. Depot.

A dozen or more men are engaged putting down a metal driveway on the west side of the tracks at the I. C. station.

Caution

Imitations have been placed upon the market so closely resembling Alcock's Plaster in general appearance as to be well calculated to deceive. It is however, in general appearance only that they compare with Alcock's for they are not only lacking in the best elements which have made Alcock's so efficient, but are often harmful in their effects. Remember that Alcock's are the original and only genuine porous plasters—the best external remedy known—and when purchasing plasters the only safe way is to always insist upon having Alcock's.

The Limit of Life

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every vital organ of the body. Guaranteed by R. C. Hardwick, Druggist, 50c.

Rough on Harry.

TOBACCO DESTROYED

Belonging to Messrs. Wallis and Fowler, of Bethesda.

The Cadiz Record says: "We have been informed that some one entered the barn on the old Sills farm, near Bethesda, several miles north of here last Wednesday night, which place belongs to Mr. H. C. Wallis, of Rinaldo, and threw about 2,500 pounds of tobacco upon the floor in a tangled mass, which damaged it considerably, owing to the dry condition of the weed. About 1,000 pounds of it belonged to Mr. Wallis, while the remainder belonged to Mr. C. Jeff Fowler.

The Princeton Leader says Mr. Wallis authorizes the statement that he will give a reward of one hundred dollars for the arrest and conviction of the parties who destroyed the tobacco as above mentioned.

AT TABERNACLE.

To-morrow Night's Musical Feast.

One of the most enjoyable numbers of Mr. McPherson's Tabernacle course will be the Kellogg-Haines Singing party to-morrow night. This is No. 6 of the course and the papers speak in most unqualified terms of the merits of the people composing the party. Their program is varied and embraces a wide range. The Oneonta Star says: "This is without doubt the best musical company appearing here in several seasons."

AMUSEMENTS.

When the train rumbles onto the stage for the famous "Blue Cut" train robbery scene in "The James Boys in Missouri," a stage effect startling in its realism is offered. It is one of the most sensational and surprising scenes ever put on, and we will have the privilege of seeing this production here next Friday night, March 1st. The play is a strong one, the plot being well constructed and well handled by a large and competent company. The scenic effects are the finest ever seen in a production of this kind.

EXCITING GAMES.

High School and Soldiers Won Contests.

The double-header basketball game Friday night resulted in victories for Company D and the High School teams. In the first game of South Kentucky College and Company D, the Soldiers won by the score of 20 to 14. The line-up of the first game was as follows:

S. K. C. 1st.	Co. D, 1st.
Phillips.....Forward.....	Summers
Cutcher.....Forward.....	Clark
Hay.....Center.....	Renshaw
Bridgewater.....Guard.....	Holeman
.....Clubhouse	

The second game between the Second College team and the High School was a faster contest than was the first, the players being lighter in weight, and stubbornly contested every point. The score was 19 to 4 in favor of the Public High School boys. Following is the line-up of this game:

S. K. C. 2nd.	H. H. S.
McCarley.....Forward.....	Meacham
Kuykendall.....Forward.....	Faxon
Sherrill.....Center.....	Earle
Bridgewater.....Guard.....	Barley
Hardy.....Guard.....	Breathitt
Woodruff.....Guard.....	Barley

The next games will be played Friday night of this week.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; leads to nervousness and cheerlessness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle sent by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Rutherford, N. J., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Rutherford, N. J., on every bottle.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

KAISER'S AMBITION

WANTS TO COMPLETE ROAD TO BAGDAD AND PERSIAN GULF.

Declared That the German Emperor is Determined to Have an All Rail Route from Hamburg.

Among the many ambitions of Kaiser Wilhelm of Germany, not the least is that of possessing an all rail route from Hamburg, Germany, to Bagdad and the port of Koweit, on the Persian gulf. It is said that the emperor has resolved to have the connecting lines already projected through Asia Minor pushed on to completion if he has to get up a war to do it. And the Sultan of Turkey approves the enterprise, for the road would be invaluable to the government from military and commercial points of view, saying nothing of at-

Projected Bridge Over the Bosphorus.

fording speedy and direct routes to the holy city of Mecca.

The Germans are anxious to have the Bagdad railway speedily finished to open up new commerce for Germany with the 300,000,000 population of British India. The proposed railway system would cover a large part of the distance on the direct road to India. When once completed from Constantinople through Asia Minor to the Persian gulf the line, with its European connections, would enable the Kaiser's Imperial train to make an unbroken journey from Berlin to Bagdad and the Persian gulf as well as to ancient cities of Palestine.

The first section of 200 kilometers from Konis to Eregli (east of Constantinople) has been completed. It is now proposed to begin work on three sections of the line of 200 kilometers each. It is estimated that the cost of each section will average about \$10,000,000.

Notwithstanding Germany's influence sometimes in colonial policy, as in the case of Turkey and Asia Minor, the Kaiser certainly achieved a brilliant commercial policy. In ten years her commerce in Asia Minor has increased more than tenfold. By her Bagdad concessions Germany has acquired a vast strip of country through Asia Minor. It is about 3,500 kilometers long by 40 broad, for the concession gives her rights of mineral and other developments for 20 kilometers on each side of the line. Germany looks forward in the future to the development of the bituminous and petroleum yielding lands at Kerkuk, about Babylon and the Tigris and Euphrates Valley, known to be able to furnish a supply ten times that of the Baku oil fields. She calculates that Anatolia, Syria, Mesopotamia and Iraq can, when developed, produce more corn than the whole of Russia.

Already the German emperor has studied the carefully devised plans of the famous German engineer Siegmund Schneider for spanning the Bosphorus with a bridge uniting Europe with Asia. The Sultan has seen the plans and approved them, and the mere question of raising the necessary money to complete the work along the railroad line will not keep the great monarchs awake at night to any extent.

Down in those vast plateaus and valleys along the Tigris and Euphrates are inexhaustible quantities of petroleum and coal. The road will awaken the echoes of the ancient world which built the greatest cities of history, among them Babylon and Nineveh, where vast armies overran the earth and palaces arose on every hand.

The idea of such an enterprise bringing to life an ancient civilization is inspiring. Leaving Hamburg or Berlin, the passenger soon arrives at Vienna and takes his way down the continent through Budapest, passing through Austria, Hungary, Serbia, Bulgaria, down to the north of Greece, through Constantinople, across the Bosphorus, thence toward the Persian gulf, going a little to the north of the ancient city of Troy and to the south of Armenia, called "the cradle of the world." Mount Ararat and the Persian capital, passing the branch lines leading to Damascus and the Holy Land, with Jerusalem on the one hand and Accos on the other, until Bagdad is reached. Thence a short run takes the train to the seaports on the Persian gulf.

Diplomatic.

The tireless preacher finally finished his almost interminable sermon. The congregation had slowly filed out, save one man, who lagged behind to speak with the pastor. "Do you know, minister," he said in a confidential tone, "that your sermon this morning reminded me more of a wheel than anything else that I ever heard of?" "A wheel!" said the startled divine. "How could it do that?" "Oh, merely that in a wheel the longer the spokes are the longer is the tire," Hargreaves Weekly.

How Nature Provides.

OUR BEAUTY, HEALTH AND HAPPINESS.

Is it not possible if not probable that elements necessary for the body-health are contained in the native medicinal plants found in the earth, digested in the plant laboratory of nature and made ready for man or animal?

The medicinal virtues of many American plants and roots were known to the early Indians. Thus a root known to modern physicians as Calophyllum or Blue Calocot was known to the Indians as "Squaw root." Another, known to the Indians as "Baldwin root," is used in modern medicine as "Cinchona."

Prof. King's American Dispensary, an authority in these matters, says: "Our Indians set a high value on Baldwin root (Black Cohosh) in diseases of women. It is surpassed by no other drug in constipation and the parts where there are dragging pains and tenderness."

After many years of study and experiment Dr. Pierce, the medical director of the "Invalids' Hotel and Surgical Institution," at Buffalo, N. Y., put up a prescription of his own, containing the non-alcoholic, glyceric extracts of the two above mentioned ingredients, together with Golden Seal root, Lady's Slipper root and Ulicera root. This was entirely cured of the old trouble. Am well and can enjoy life once more."

entirely avoided in its manufacture, chemically pure glycerine being found to serve the purpose of extracting and preserving the medicinal properties even better than alcohol.

Learn the Truth. The one medicine for the cure of all the peculiar weaknesses and ailments, the ingredients of which are printed on the wrapper of every bottle, leaving the great Laboratory in Buffalo, N. Y., where it is made is called Dr. Pierce's FAVORITE PRESCRIPTION.

It Stands Alone not only in respect to its ingredients, but also as the only specific advertised remedy for women's diseases which absolutely contains no alcohol.

It Stands Alone as the one medicine for women, the makers of which take their patients fully into their confidence and tell them exactly where they are taking. This Dr. Pierce can afford to do, because his "FAVORITE PRESCRIPTION" is made of such ingredients and after a working formula that has thousands of cures to its credit placing its merits above criticism.

It Stands Alone as Nature's cure for the diseases peculiar to women because the earth supplies the vegetable ingredients.

Mrs. Mary J. Beard (Trained Nurse, Washington Hospital, of 25th and S Street, N. W., Washington, D. C., writes: "I felt badly for four years, had terrible stomach troubles and was often unable to be alone attending to my duties, appetite was poor and sleep brief. Tried to cure myself in various ways without success, but finally my attention was called to Doctor Pierce's Favorite Prescription and decided to try it. An extraordinary gain I did for it began to improve with the first bottle, and once taken do not have to be taken again. One little 'Pelle' is a gentle laxative, and two a mild cathartic. They never gripe. By all druggists."

Dr. Pierce's Good temper is largely a matter of good health, and good health is largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation. They are safe, pure and speedy, and once taken do not have to be taken again. One little "Pelle" is a gentle laxative, and two a mild cathartic. They never gripe. By all druggists."

CAPE COD CANAL

SHIP CHANNEL TO BE CUT ACROSS THE PENINSULA.

Will Bring Boston and New York Nearer Together by the Water Route—Advantages Which Will Be Gained.

When the Cape Cod canal is finished in three years, the time set by its promoters, New York city will be 140 miles nearer the Hub by sea and 76 miles closer by the sound route. Estimates from such data as are available indicate that a tonnage of coastwise trade of 22,000,000 tons now passes annually around Cape Cod by all or partly open sea routes. The major portion of this is expected to be diverted through the canal by the very low tariff promised and the averting of delay and danger associated through a greater part of the year with navigation in the stormy waters and sweeping fogs of Cape Cod and the fogs which menace swift there, as also in treacherous Vineyard sound, a part of the "inside" route. Most of the tonnage is coal, and cheaper fuel for the mills of northern New England is one of the most important commercial prospects of the proposed canal building.

Strategic values of such a canal to vessels of light draft are of federal importance. It should be a great boon to yachtsmen.

From the shore of Buzzard's bay, beginning in the town of that name, the canal is to be cut through the narrowest part of Cape Cod, the terminus of Massachusetts bay being at Barnstable. From shore to shore is seven and one-half miles. Shoals in Buzzard's bay will require dredging of an additional distance of four and one-half miles, according to Mr. Flanagan's engineers' report, and will make the total length of canal building 12 miles, with a depth throughout at low tide of 25 feet. It follows the valley of the Monument and Sisseton rivers, and is so located that the maximum deviation is only 600 feet, or about a half mile on each side of a straight line.

No engineering problem faces the builders, Mr. Flanagan said, as it is simply a question of removing so many million cubic feet of earth.

The minimum width of the bottom will be 125 feet, extending at four points for the passage of vessels going in opposite directions to 300 feet and 350 feet on the surface. The character of the soil will render unnecessary any retaining construction on the side except at a few points of—no great length, where ordinary rip-rap will be all that is required.

The estimate of the actual cost of construction is \$10,000,000, but no allowance is made in these figures for a contractor's profit. It is believed that the canal can be completed within three years at an outlay of \$12,000,000.

For naval purposes the canal will have a value, as it will be navigable for second class cruisers, torpedo and gun boats and submarine craft. Idealists may see in it a link in that ocean to ocean route by inland waters which has been a dream of imaginative naval strategists for generations.

Map Showing Location of the Canal.

There is an old project to utilize the St. Mary's river for a portion of a water highway across Florida and build a canal to the gulf from the head of the St. Mary's. At the other end of the gulf theorists have devised a scheme for the access of the Colorado river by war vessels of light draught, utilization of the proposed inland lakes, part of the irrigation system, the building of a canal to the Gila river and thence gaining access to the Gulf of Lower California.

Not the least of the advantages of the proposed Cape Cod canal would be its value to yachtsmen who are chary to "going on the shoals" in their light craft to make a trip from New York to Massachusetts Bay for yachting contests there.

Dr. Lapponi's Successor.
Dr. Ettore Marchalava, who succeeded the late Dr. Lapponi as private physician to the pope, was born 52 years ago at Clivita Vecchia and was principally educated in Rome, where he is now professor of pathological anatomy at the university. He is the discoverer of the malarial parasite and the originator of the scheme by which the eternal city has been rendered free from malarial fever.

WORK WEAKENS THE KIDNEYS.

Doan's Kidney Pills Have Done Great Service For People Who Work in Hopkinsville.

Most Hopkinsville people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagon-cars—doing laborious housework, lifting, reaching or pulling or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney pills cure sick kidneys, puts new strength in bad backs—cures prove it.

John J. Basford, Cooper, of 766 East 9th St. says: "My back used to be so lame and sore at times that when I bent it was all I could do to straighten up again. The pains were always with me and doctored at one time but didn't obtain the slightest benefit. My attention was called to advertisement of Doan's Kidney Pills and I determined to try them.

I got a box and after using them a few days could not help but notice a marked improvement in my condition. My health is better now than it has been for years. I give all the credit to Doan's Kidney pills, and strongly recommend them to others."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's and take no other.

Shake hands with hardship as it were your friend, and you have hero material in you.

SCALY ECZEMA ALL OVER BODY

Eruptions Appeared on Chest, and Face and Neck Were All Broken Out—Scales and Crusts Formed—A Lady Has Great Faith in Cuticura Remedies for Skin Diseases.

ANOTHER WONDERFUL CURE BY CUTICURA

"I had an eruption appear on my chest and body and extend upwards and downwards, so that my neck and face were all broken out; also my arms and the lower limbs as far as the knees. I at first thought it was prickly heat. But soon scales or crusts formed where the breaking out was. Instead of going to a physician, I purchased a complete treatment of the Cuticura Remedies, in which I had great faith, and all was satisfactory. A year or two later the eruption appeared again, only a little lower; but before it had time to spread I procured another supply of the Cuticura Remedies, and continued their use until the cure was complete. It is now five years since the last attack, and have not seen any signs of a return. I have taken about three bottles of the Cuticura Remedies, and do not know how much of the Soap or Ointment, as I always keep them with me; probably one half dozen of each.

"I decided to give the Cuticura Remedies a trial after I had seen the results of their treatment of eczema on an infant belonging to one of our neighbors. The parent took the child to the nearest physician, but his treatment did no good. So they procured the Cuticura Remedies and cured her with them. When they began using Cuticura Remedies her face was terribly disfigured with sores, but she was entirely cured, for I saw the same child at the age of five years, and her mother told me the eczema had never broken out since. I have more faith in Cuticura Remedies for skin diseases than anything I know of. I am, respectfully yours, Emma E. Wilson, Lincoln, Iowa, Oct. 1, 1905."

Complete External and Internal Treatment for Every Humour, from Pimples to Scalds, from Itchiness to Aps, consisting of Cuticura Soap, Cuticura Ointment, and Cuticura Pills. The latter are sold in bottles of 25 cents each. The former in boxes of 25 cents each. A single bottle of Cuticura Soap and Ointment, 25 cents each. A single bottle of Cuticura Pills, 25 cents each. A single bottle of Cuticura Soap and Ointment, 25 cents each. A single bottle of Cuticura Pills, 25 cents each.

REV. BIRCH'S FINE START.

His Sermon to Men Preached to a Packed House.

STARTS BUSY WEEK.

An Unusual Congregation Gathered to Hear Him Sunday Night.

The sermons at the First Presbyterian church Thursday and Friday nights, which opened up a campaign by Rev. Chester Birch, have been highly commented upon. The attendance at these two meetings evidenced the high appreciation in which Mr. Birch is held by our people. This high estimate of a man, who has for 24 years been traveling all over this country and Canada in preaching the Word, was strongly emphasized at the Sunday afternoon sermon to men only. This gathering of the men taxed the full capacity of the building, and demanded the additional use of chairs.

In his sermon to men Sunday afternoon the preacher took the prophet Daniel as a model man of devotion and courage. He called upon all professing Christians to stand firm as did Daniel under the most trying circumstances. Whilst the conditions of today are entirely different from those in the days of the prophet, yet there are times when they may be as trying. Then it is that a man must prove himself to be a man amongst men as did Daniel when all the other people were bowing down to an image of the King. It is useless to say that this sermon received the very closest attention of the large audience. Mr. Birch seemed to have won the confidence of the men, and all evidently have highly enjoyed the message the evangelist delivered to them.

Sunday night the house was again filled, though there were regular services at all the churches with one exception.

The preacher announced as his text the latter clause of the 16th verse of the 119th Psalm: "I will not forget thy word." After emphasizing the fact that children should study and become familiar with the Bible, he then related instances where men who had been turned from an evil life by remembering things in the Bible they had learned in childhood. The crowd that heard this sermon was remarkable in that there were far more men than ladies in the house, something probably unprecedented in general meetings here.

This is to be, a very active week with Mr. Birch and his workers. Programs for the services for the entire week have been carefully placed in every home in the city, and almost every moment will be used for prosecuting the work as mapped out.

Mr. Birch announced last Sunday afternoon that he expected to have another meeting for men before leaving the city, probably next Sunday afternoon. It seems pretty certain that it will be necessary to use the Tabernacle.

While the men's meeting was going on at the First Presbyterian church a ladies' meeting was in progress at the Methodist church.
